What if... the United Nations said in an address to the world titled: "The Wildfire of Hate"

"Together, we can put out the wildfire of hate and uphold the values that bind us together as a single human family" --  
United Nations Secretary-General António Guterres

“

Hatred is a danger to everyone – and so fighting it must be a job for everyone.

What if... then, there was a complaint about haters involved in #GangStalking by the leadership and directors of the Ryan White Care Act, profoundly placed region to region and can be ascertained to be a systemic problem in a federal program and the FBI nor anyone else would not care to help the citizen find the resources to help? What if ... then that citizen, in the role of community peace builder has been and continues to not be able to trust that he will not continue to be the victim of haters?

What if... no one cared? What if... no one in law enforcement cared?

What if... then this citizen was visited by law enforcement to stop the citizen from time and time again to find a solution to this problem of a paradigm that the citizen sees a need of protection by casting a view of support over the citizen...

What if... no matter where this victimization occurred, that the role of peace builder means, he might just have a solution and view to bring forward to stop mass gun shootings?

What if... because law enforcement is negligently misunderstanding their role involved in this citizen's reaching out; and they claim that this citizen is harassing them?

What if... In the process the police files criminal charges, and the citizen actually has the solution to stop mass gun shootings; by way; the police enforce the rules and laws that stop gang stalking?

What if... then lives could be saved.

For that is the role of law enforcement to "protect and serve"

-- both protect and serve is missing here.

WHAT IF THERE IS A GREATER CONSPIRACY HERE TO NOT SEE THIS REALISM?

What if... what is said here is the absolute truth in these matters?

What if... there is never a community affairs presentation and these mass gun shootings continue?

What if...

I will not contact you further via this method ... but

What if... you were to just respond a little wiser?

What if...

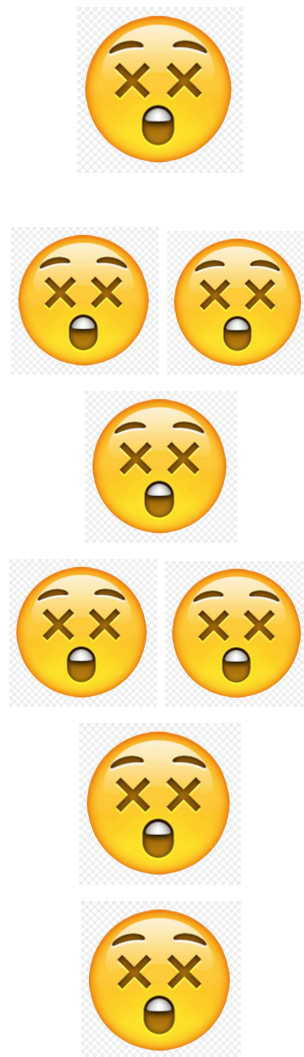

I will still need a liaison and will attempt "coffee with cop" [ even though I detest coffee ].

Can I get the attention of that cop that seriousness is what I need and that seriousness will not dismiss me?

What if I am never treated honorable and with dignity?

The answer is, people continue to die.

Not by my hands, but by your playing games of hopscotch and your lack of response of responsibility to the first question posed in this document.

What if... you act dis-proportioned and file that harassment charge, in a criminal pursuit to hold a conspiracy?

I at least I will have counsel.

All I want is a community affairs realism of empowerment and you all won't break a conspiracy of hate. Will you?

What if... hate is allowed to always win?
